STATE G.P.S. VIRTUAL REFERENCE STATION CONTROL
NETWORK MAINTAINED AND OPERATED BY THE
AUTOMATED GEOGRAPHIC REFERENCE CENTER

NARRATIVE

This survey was performed at the request of El Paso E&P Company for the purpose of marking on the ground the corners of the parcel shown on this plat. Section 20 was originally surveyed by the General Land Office using the "three mile" method during which the 1/16 corners were set. A search was made for the monuments marking these Public Lands Survey System corners and the results are noted on the plat. These corners were used to control the survey.
